

About Procedures Consult Mobile

Procedures Consult Mobile provides access to the expert video (including the ability to view Video Key Steps), "Quick Review" text / illustrations, and checklist / universal protocol content for every procedure on the product within a user interface optimized for both 3G touch screen and non-touch screen mobile devices.

Procedures Consult Mobile is a web application accessible on any supported mobile device over a 3G wireless or Wi-Fi network. Procedures Consult Mobile can be accessed by pointing a mobile browser to <http://m.proceduresconsult.com> and signing in with form authentication credentials (i.e., an approved username and password on the system).

Additional support information can be found within the "Help" section of the web application as well or by contacting Elsevier Technical Support at iestechsupport@elsevier.com or (877) 857-1047.

Supported mobile platforms

Please note: The Procedures Consult Mobile application has been optimized for the devices/platforms listed below; however, the content may be accessible on other devices/platforms as well.
